

## FRANK STELLA

This series of six original color lithograph/screenprints was hand printed at Tyler Graphics Ltd., Bedford, New York. Collaboration between the artist and the staff of the workshop took place from November 1976 to October 1977. Production was supervised by Kenneth Tyler with processing of printing elements, proofing and edition printing by John Hutcheson, Kim Halliday and Kenneth Tyler. The prints combine the techniques of stone and metal plate lithography and hand-cut and photo screen printing.

The six limited editions of fifty impressions each were printed on special 350 gram *Arches 88* mould-made paper and vary from twenty seven to fifty seven colors. Each impression is signed and numbered in pencil by the artist and bears the chopmark of the workshop in the lower right margin.

Complete documentation describing each edition in detail is available upon request.
